Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art of record taken alone and in combination does not disclose "said apparatus is coupled to said structure, resulting in the formation of a gantry for supporting a carriage, a mast mounted on said carriage and at least one of an emitter and detector mounted on said mast which forms in part at least one inspection robot capable of precise positioning over large ranges of motion; said at least one inspection robot further comprises a beam structure for supporting and allowing horizontal translation of said carriage; said carriage is coupled to said mast, wherein said mast supports and allows a vertical translation of said at least one of the emitter and detector mounted on said mast, and wherein said mast is configured to provide yaw movement of said at least one of the emitter and detector; and said at least one of the emitter and detector is configured to provide rotation about at least one axis of roll and yaw motion of said at least one emitter and detector" as recited in claim 9 and "said robotic scanning means supported by said structure and including means to move a scanning head of said robotic scanning means in three linear directions and at least two rotational directions; means to initialize said scanning head both with respect to said robot and with respect to the object; and means to correlate data derived from scanning the object to a standard" as recited in claim 13. These limitations are neither taught nor made obvious by the prior art of record.

Art Unit: 2856
